## GENEALOGICAL INFORMATION FROM THE HINSDALE DOINGS

Barbara Ryan

### Introduction

The abstracts contain not only births, marriages, and deaths, but also information from “gossip” columns that would be helpful in searching for ancestors. This includes “visits” that include a relationship or different surname that includes the relationship. Some listings are abstracts, others in which the articles were very short include the full text. Obvious spelling errors are not corrected but followed by “[sic]”. Generally, other spelling, abbreviation, capitalization, and punctuation, especially the use of, or lack of, commas, is left as in the original article. The date at the end of the listing is the date of the issue of the newspaper. The volume and number are shown at the first listing for the date. When the same information was reported in several issues, the information was only included once. When additional important information was included in a later issue, for example, out of town relatives at a funeral, the information is shown in “[ ]” with the issue date. The ¶ symbol in an abstract indicates the information following was in a separate article in the same issue. The newspapers are available on microfilm at Hinsdale Public Library but will not be loaned on interlibrary from there. The microfilm can be borrowed on interlibrary loan from the Abraham Lincoln Presidential Library in Springfield, Illinois.

Oak Forest Cemetery frequently cited in obituaries is the current Bronswood Cemetery located at 3805 North Madison Street, Oak Brook, Illinois. The name was changed from Oak Forest to Bronswood about 1910. A searchable database for the Bronswood Cemetery burial index is now available on the Oak Brook (DuPage County, Illinois) Historical Society’s website at [www.oakbrookhistory.com/Bronswood/](http://www.oakbrookhistory.com/Bronswood/). That society will also begin gradually placing photos of gravestones, where a stone exists, with each burial record. Continued from The Review Vol. 38, Number 3, February 2012 issue.
